In re application of:	Confirmation No.: 7593
Beatty <i>et al.</i>	Art Unit: 3739
Appl. No.: 10/706,484	Examiner: Lee S. Cohen
Filed: November 12, 2003	Atty. Docket: 2384.002REI2
For: Endocardial Mapping System	

Information Disclosure Statement (Part I)

Mail Stop Amendment

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

Listed on accompanying IDS Forms are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98.

Applicants have listed publication dates on the attached IDS Forms based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that a search has been made, or that information more material to the examination of the present patent

application does not exist. The Examiner is specifically requested not to rely solely on the material submitted herewith.

This Information Disclosure Statement is being filed under 37 C.F.R. § 1.97(c) more than three months after the U.S. filing date and after the mailing date of the first Office Action on the merits, but before the mailing date of a Final Rejection, Notice of Allowance, or an action that otherwise closes prosecution in the application.

Attached is our PTO-2038 Credit Card Payment Form in the amount of \$180.00 in payment of the fee under 37 C.F.R. § 1.17(p).

Copies of documents NPL1-NPL30 are submitted. However, in accordance with 37 C.F.R. § 1.98(a)(2), no copies of U.S. patents and patent application publications cited on the attached IDS Forms are submitted.

It is expected that the examiner will review the prosecution and cited art in the parent application nos. 08/376,067, 07/950,448 and 07/949,690 in accordance with MPEP 2001.06(b), and indicate in the next communication from the office that the art cited in the earlier prosecution history has been reviewed in connection with the present application.

Applicants hereby inform the Examiner of current litigation involving a later-filed patent that claims priority to the patent for which reissue is currently sought. This disclosure is being made in accordance with MPEP 2001.06(c). The relevant litigation is *Biosense Webster, Inc. v. Endocardial Solutions, Inc.*, 04-8409-GHK (JWJx), C.D. Cal. A counterclaim involving U.S. Pat. No. 6,978,168, issued December 20, 2006, has been

introduced into the litigation. U.S. Pat. No. 6,978,168 claims priority to U.S. Pat. No. 6,240,307, which is the subject of the instant reissue application. As they become available, Applicants will provide the Examiner with any documents from the litigation that are material to the patentability of the reissue application in accordance with *Critikon, Inc. v. Becton Dickinson Vascular Access, Inc.*, 120 F.3d 1253 (Fed. Cir. 1997).

It is respectfully requested that the Examiner initial and return a copy of the enclosed IDS Forms, and indicate in the official file wrapper of this patent application that the documents have been considered.

The U.S. Patent and Trademark Office is hereby authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 19-0036.

Respectfully submitted,

STERNE, KESSLER, GOLDSTEIN & FOX P.L.L.C.

Michelle K. Holoubek

Include copy of this form with next communication to applicant. ¹Applicant's unique citation designation number (optional). ²See Kinds Codes of USPTO Patent Documents at www.uspto.gov or MPEP 901.04. ³Enter Office that issued the document, by the two-letter code (WIPO Standard ST.3). ⁴For Japanese patent documents, the indication of the year of the reign of the Emperor must precede the serial number of the patent document. ⁵Kind of document by the appropriate symbols as indicated on the document under WIPO Standard ST.16 if possible. ⁶Applicant is to place a check mark here if English language Translation is attached.

This collection of information is required by 37 CFR 1.97 and 1.98. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 2 hours to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 (1-800-786-9199) and select option 2.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it contains a valid OMB control number.

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of:
Beatty *et al.*
Appl. No.: 10/706,484
Filed: November 12, 2003
For: **Endocardial Mapping System**

Confirmation No.: 7593
Art Unit: 3739
Examiner: Lee S. Cohen
Atty. Docket: 2384.002REI2

Information Disclosure Statement (Part II)

Mail Stop Amendment

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

Listed on accompanying IDS Forms are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98.

Applicants have listed publication dates on the attached IDS Forms based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that a search has been made, or that information more material to the examination of the present patent application does not exist. The Examiner is specifically requested not to rely solely on the material submitted herewith.

This Information Disclosure Statement is being filed under 37 C.F.R. § 1.97(c) more than three months after the U.S. filing date and after the mailing date of the first Office Action on the merits, but before the mailing date of a Final Rejection, Notice of Allowance, or an action that otherwise closes prosecution in the application.

Copies of documents NPL31-NPL72 are submitted.

It is expected that the examiner will review the prosecution and cited art in the parent application nos. 08/376,067, 07/950,448 and 07/949,690 in accordance with MPEP 2001.06(b), and indicate in the next communication from the office that the art cited in the earlier prosecution history has been reviewed in connection with the present application.

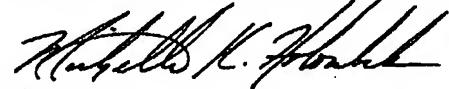

Applicants hereby inform the Examiner of current litigation involving a later-filed patent that claims priority to the patent for which reissue is currently sought. This disclosure is being made in accordance with MPEP 2001.06(c). The relevant litigation is *Biosense Webster, Inc. v. Endocardial Solutions, Inc.*, 04-8409-GHK (JWJx), C.D. Cal. A counterclaim involving U.S. Pat. No. 6,978,168, issued December 20, 2006, has been introduced into the litigation. U.S. Pat. No. 6,978,168 claims priority to U.S. Pat. No. 6,240,307, which is the subject of the instant reissue application. As they become available, Applicants will provide the Examiner with any documents from the litigation that are material to the patentability of the reissue application in accordance with *Critikon, Inc. v. Becton Dickinson Vascular Access, Inc.*, 120 F.3d 1253 (Fed. Cir. 1997).

It is respectfully requested that the Examiner initial and return a copy of the enclosed IDS Forms, and indicate in the official file wrapper of this patent application that the documents have been considered.

The U.S. Patent and Trademark Office is hereby authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 19-0036.

Respectfully submitted,

STERNE, KESSLER, GOLDSTEIN & FOX P.L.L.C.

This collection is estimated to take 2 hours to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it contains a valid OMB control number.

Substitute for form 1449/PTO				<i>Complete if Known</i>	
INFORMATION DISCLOSURE STATEMENT BY APPLICANT (PART II) <i>(Use as many sheets as necessary)</i>				Application Number	10/706,484
				Filing Date	November 12, 2003
				First Named Inventor	Graydon Ernest Beatty
				Art Unit	3739
				Examiner Name	Lee S. Cohen
Sheet		3	of	5	Attorney Docket Number
2384.002REI2
